

Q-01)

-\$0.01	\$0.00	\$100.0	\$100.01	\$999.99	\$1000.00 and above
Invalid The input value is -5	Valid (3% interest rate) The input value is 45	Valid (5% interest rate) The input value is 500	Valid (7% interest rate) The input value is 2000		

Boundary Values are, -\$0.01, \$0.00, \$100.00, \$100.01, \$999.99, and \$1000.00

Q-02)

TC ID	TC Name	Test Steps	Expected Result	Actual Result	Status
001	Adding empty input values	Input A: NO value Input B: NO value Click ADD button	The result text box should be empty		
002	Adding positive input values	Input A: 5 Input B: 10 Click ADD button	The result text box should be displayed as 15		
003	Adding negative input values	Input A: -15 Input B: -20 Click ADD button	The result text box should be displayed as -35		
004	Adding negative, and positive input values	Input A: -5 Input B: 10 Click ADD button	The result text box should be displayed as 5		
005	Adding positive, and negative input values	Input A: 15 Input B: -20 Click ADD button	The result text box should be displayed as -5		
006	Adding String value for input values	Input A: one Input B: two Click ADD button	The proper error message should be displayed as "cannot add Strings"		
007	Checking clear button functionality	Input A: 5 Input B: 10 Click CLEAR button	Input fields should be cleared		
008	Checking clear button functionality after clicking the ADD button	Input A: 5 Input B: 10 Click ADD button Click CLEAR button	Input fields and output field should be cleared		
009	If the output result field is editable, then input a value and click ADD button	Input A: 5 Input B: 10 Click ADD button Input Output result field: 5	The output result field should not be editable and A proper error message should be displayed as "Cannot edit the output result"		

Q-03)

a)

```
public class VerifyCreateAccout {  
  
    @Test  
  
    public void login_method() {  
  
        System.setProperty("webdriver.chrome.driver", "path of the driver");  
  
        WebDriver driver=new ChromeDriver();  
  
        driver.manage().window().maximize();  
  
        driver.get("http://automationpractice.com/index.php?controller=authentication&back=my-account");  
  
        WebElement email=driver.findElement(By.id("email_create"));  
  
        WebElement register=driver.findElement(By.id("SubmitCreate"));  
  
        email.sendKeys("ravindu.samaraweera11@gmail.com");  
  
        register.click();  
  
        String actualUrl="http://automationpractice.com/index.php?controller=authentication&back=my-account#account-creation";  
  
        String expectedUrl= driver.getCurrentUrl();  
  
        Assert.assertEquals(expectedUrl,actualUrl);  
  
    }  
  
}
```

b)

1.go to :http://automationpractice.com/index.php?id_category=3&controller=category#/

click sort by field

Price:Highest First

Sorting is not working

2.go to : http://automationpractice.com/index.php?id_category=8&controller=category

click sort by field

Price:Highest First

Sorting is not working

3. Dress COLOR FILTER is not working according to the color

4.when click on OUR STORIES MENU it directs to google map which is not relevant

<http://automationpractice.com/index.php?controller=stores>

Q-04)

SELECT emp_name

FROM employees

WHERE salary>2000 AND months<10

ORDER BY emp_id ASC;
